

## **Major Features in Conference Report for HB 1600**

### **February 28, 2009**

#### **Resources**

- Reflects the revised general fund revenue forecast presented by the Governor on February 16, 2009, that reduces revenues by an additional \$821.5 million for the biennium.
  - This reduction is in addition to the \$2.9 billion reduction assumed in the budget as introduced, bringing the total downward revenue revision to \$3.7 billion.
- Reflects a compromise on the remittance of sales tax from large dealers that changes the reporting schedule for all dealers at or above a threshold of \$12.0 million in annual taxable sales.
  - Effective June 20, 2010, these dealers will make their normal remittance for the month of May and an additional remittance for the first 15 days of June. Beginning on July 20, 2010, they will remit and “true up” for the balance of June and the first 15 days of July.
  - This cycle will continue in perpetuity with monthly remittance on the 20th of each month covering the period from the 16th of the previous month through the 15th of the current month.
  - This proposal would affect less than 1,000 out of 143,530 dealers and would generate a one-time shift in revenues of approximately \$97.8 million from FY 2011 to FY 2010.
- Reflects an increase in the federal Medicaid matching rate, providing additional federal funds for this program of about \$1.0 billion.
  - Instead of the current 50-50 match rate, the federal government would match state Medicaid dollars at a rate of 56.8 percent. This allows general funds to be “freed up” to help address the revenue shortfall.
  - This amount also helps cover an increase in the Medicaid forecast of \$183.0 million above the budget as introduced.

- Reflects the appropriation of \$984.0 million in anticipated “flexible spending” fiscal stimulus dollars designated for education. These funds allow the restoration of \$365.2 million in FY 2010 for public education, and \$126.7 million for higher education, and a like amount in FY 2011.
- Uses \$218.0 million in “flexible spending” fiscal stimulus dollars to offset one-time general fund spending items and help create an unappropriated balance of \$159.4 million.
- Directs \$23.3 million in federal Byrne Justice Assistance Grant funds help restore cuts in sheriffs’ offices and local and regional jails.

### **Public Education**

- Provides a total estimate of \$14.3 billion for direct aid to public education over the 2008-2010 biennium: \$11.0 billion general fund, \$860.7 million Lottery Proceeds Fund, \$1.7 billion federal funds, \$365.2 million federal ARRA funds, and \$351.9 million Literary Fund.
- Provides a total of \$365.2 million from the American Recovery and Reinvestment Act of 2009 in order to backfill a like amount of general fund basic aid payments. A like amount will be provided in FY 2011 to public education.
- Restores \$60.8 million in the second year for the Additional School Construction and Other Operating Costs from the elimination of the Funding Loss Cap.
- Restores \$1.2 million in the second year for the Commonwealth Center for Children and Adolescents facility in Staunton.
- Adds \$1.5 million in the second year for a variety of supplemental education program initiatives: National Board Certification bonuses, Interstate Compact on Educational Opportunity for Military Children, Jobs for Virginia Graduates, and Greater Richmond Area Scholarship Program.

- Includes savings of \$11.9 million in the second year from projected nonparticipation rates for the Virginia Preschool Initiative.
- Includes savings of \$25.6 million from mid-session reforecast of sales tax over the biennium.
- Directs the Department of Education (DOE) to calculate the rebenchmarking cycle for the 2010-2012 biennium in two ways: (i) including the support cap methodology, and (ii) excluding the support cap; and to report the final calculations.
- Directs DOE to review laws, regulations, and procedures that could be modified, reduced, or eliminated in an effort to minimize the administrative burden on local school divisions.
- Requests that the Board of Education review the current Standards of Quality to evaluate the appropriateness of the existing staffing standards for instructional positions and the appropriateness of establishing standards for support positions.

### **Higher Education**

- Provides \$126.7 million of federal funds from the American Recovery and Reinvestment Act of 2009 to offset FY 2010 reductions.
- Funds are expected to mitigate the need for tuition and fee increases on in-state students.
- Includes \$10.0 million GF for a system-wide 8.5 percent increase in student financial aid.
- Restores \$4.0 million GF for the Eminent Scholars program.
- Provides \$8.3 million for interest earnings on nongeneral fund balances as part of restructuring incentives.
